

MX-D160-TBL

Bolt Locks

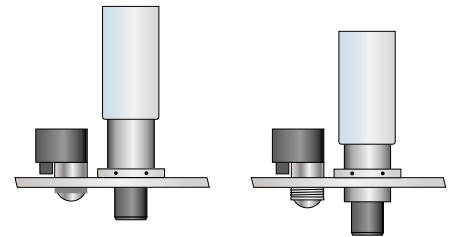

Failsafe

4-7/8" H x 1-1/4" W faceplate with auto
relock switch

The Failsafe Bolt Lock

The failsafe 160 bolt locks are equipped with an auto relock switch that keeps the bolt retracted when the door is open and causes the door to lock when closed. The auto relock switch and the bolt assembly are both adjustable for wide door gaps.
