

MX-12-VR

Voltage Regulator Sequencer Module

The addition of the MX-12-VR Module enables dual 12VDC and 24VDC output capability. With the MICROAXS 600 Series power supply output set at 24VDC for locking devices and components, the addition of the MX-12-VR provides a separate 12VDC, 500 mA output for 12VDC Access Controllers and readers or other devices. The need for separate power supplies for 12VDC and 24VDC requirements within the same system is eliminated.

Features

The addition of the MX-12-VR provides a separate 12VDC, 500 mA output for 12VDC access controls and components. The total combined n12V/24V load may not exceed the maximum power supply output rating.

Specification

Model	MX-12-VR
Input	24VDC
Output	500 mA @ 12VDC
Capacity	602RF One Maximum 631RF One Maximum 632RF Two Maximum 634RF Four Maximum 636RF Six Maximum
Dimensions	3.25" H x 2" W
