

MX-24VSM

Voltage Switch Module 24V turn 12V

- Dimensions : 69L*60W*15H (mm).
- Material : high quality elements with superb design.
- Applied to double-door interlocking.
- Max. overload : 5A/24V.
- Gross Weight : 0.06kg.

Overview

MX-24VSM, Voltage Switch Module 24V turn 12V can be used for access control system.

Features

1. Input : 12~28VDC (Blue).
2. Output : 12VDC / 1A (Green).

Specification

Model	MX-24VSM
Dimensions	40L*27W*12H(mm)
Suitable for	Externally-connected electronic lock of access control system
Input Voltage	12~28VDC
Ouput Voltage	Input Voltage
Weight	0.03kg
