

MX-BPS/MX-UBPS

UPS Linear Power Supply for Access Control

UPS Linear Power Supply for Access Control is a non-high-frequency interference ripple of linear DC power supply, It is practical, Simple interface, Design features such as stability.

Features

- 1.Special Design, Can Built-in 12V/7AH Battery.
- 2.Produced with original high-quality imported components.
- 3.The Best Choice of Access Control System.
- 4.Multifunctional Access Control Output Contact, Can Directly Connect Electric lock, Switch, Door Bell, etc.

Specification

Model	MX-200BPS	MX-220UBPS
Input voltage	220VAC~240VAC;50HZ	
Output Voltage	11VDC-14VDC; 3A	5A
Output current	Lock, Access control, Exit Button	
Material	Shell:Iron Material, Painted	
Time Relay	0~15sec	
Optional Fuction	110v Input Voltage Customization Available	
Dimensions	204*164*72(mm)	
Gross Weight	1.65kg
